NOTE 1. BASIS OF PREPARATION AND OTHER

Basis of Preparation -The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. There has been no material change in the information disclosed in the notes to the consolidated financial statements included in the Annual Report on Form 10-K of Rollins, Inc. (the "Company") for the year ended December 31, 2015. Accordingly, the quarterly condensed consolidated financial statements and related disclosures herein should be read in conjunction with the 2015 Annual Report on Form 10-K.

The preparation of interim financial statements requires management to make estimates and assumptions for the amounts reported in the condensed consolidated financial statements. Specifically, the Company makes estimates in its interim condensed consolidated financial statements for the termite accrual which includes future costs including termite life expectancy and government regulations, the insurance accrual which includes self insurance and worker's compensation, inventory adjustments, discounts and volume incentives earned, among others.

In the opinion of management, all adjustments necessary for a fair presentation of the Company's financial results for the interim periods have been made. These adjustments are of a normal recurring nature. The results of operations for the three month period ended March 31, 2016 are not necessarily indicative of results for the entire year.

The Company has only one reportable segment, its pest and termite control business. The Company's results of operations and its financial condition are not reliant upon any single customer, or a few customers, or the Company's foreign operations.

Three-for-two stock split-The Board of Directors at its quarterly meeting on January 27, 2015, authorized a three-for-two stock split by the issuance on March 10, 2015 of one additional common share for each two common shares held of record at February 10, 2015.

All share and per share information has been retroactively adjusted for the three-for-two stock split effective March 10, 2015 for shareholders of record February 10, 2015.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

Recently adopted accounting standards

In November 2015, the FASB issued ASU No. (ASU) 2015-17, Balance Sheet Classification of Deferred Taxes, which requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The amendments in this update apply to all entities that present a classified statement of financial position. The current requirement that deferred tax liabilities and assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by the amendments in this update. The amendments in this update are effective for the company's financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. The amendments in this update may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. We have elected to early adopt ASU 2015-17 retrospectively in the first quarter of 2016. As a result, we have presented all deferred tax assets and liabilities as noncurrent on our consolidated balance sheet as of March 31, 2016, and have reclassified current deferred tax assets and liabilities on our consolidated balance sheet as of December 31, 2015. There was no net impact on our results of operations as a result of the adoption of ASU 2015-17.

Recently issued accounting standards to be adopted in 2016 or later

In May 2014, FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in GAAP when it becomes effective. In July 2015, the FASB approved a one-year deferral of this standard, with a revised effective date for fiscal years beginning after December 15, 2017. Early adoption is permitted, although not prior to fiscal years beginning after December 15, 2016. The standard permits the use of either the retrospective or modified retrospective (cumulative effect) transition method. We are evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method and continue to evaluate the effect of the standard on our ongoing financial reporting.

ROLLINS, INC. AND SUBSIDIARIES

In August 2015, the FASB issued ASU No. 2015-14 (Topic 606): Revenue from Contracts with Customers. ASU 2015-14 defers the effective date of Update 2014-09 for all entities by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. All other entities should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2019. All other entities may apply the guidance in Update 2014-09 earlier as of an annual reporting period beginning after December 15, 2016, including interim reporting periods within that reporting period. All other entities also may apply the guidance in Update 2014-09 earlier as of an annual reporting period beginning after December 15, 2016, and to interim reporting periods within annual reporting periods beginning one year after the annual reporting period in which the entity first applies the guidance in Update 2014-09. We do not expect this standard to have a material impact on the Company's reported results of operations or financial position.

In February 2016, FASB issued ASU No. 2016-02, Leases, which require lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than 12 months. The ASU also will require disclosures designed to give financial statement users information on the amount, timing, and uncertainty of cash flows arising from leases. These disclosures include qualitative and quantitative information. The amendments in this update are effective for the company's financial statements issued for annual periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2018. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of this standard on its consolidated financial statements. We do not expect this standard to have a material impact on the Company's reported results of operations or financial position.

In March 2016, FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting, which involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas for simplification apply only to nonpublic entities. The amendments in this update are effective for the company's financial statements issued for annual periods beginning after December 15, 2016, and interim periods within annual periods. Earlier adoption is permitted for any entity in any interim or annual reporting period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The Company is currently evaluating the impact of this standard on its consolidated financial statements. We do not expect this standard to have a material impact on the Company's reported results of operations or financial position.

NOTE 3. EARNINGS PER SHARE

The Company follows ASC 260, *Earnings Per Share* (ASC 260) that requires the reporting of both basic and diluted earnings per share. Basic earnings per share is computed by dividing net income available to participating common stockholders by the weighted average number of participating common shares outstanding for the period.

Basic and diluted earnings per share attributable to common and restricted shares of common stock for the period were as follows:

	Three Months Ended March 31,	
	2016	2015
Basic and diluted earnings per share		
Common stock	\$ 0.15	\$ 0.14
Restricted shares of common stock	\$ 0.15	\$ 0.14

NOTE 4. CONTINGENCIES

In the normal course of business, certain of the Company's subsidiaries are defendants in a number of lawsuits, claims or arbitrations which allege that the subsidiaries' services caused damage. In addition, the Company defends employment related cases and claims from time to time. We are involved in certain environmental matters primarily arising in the normal course of business. We are actively contesting each of these matters.

On December 2, 2014, Plaintiff Killian Pest Control sued Rollins, Inc. and its subsidiary HomeTeam Pest Defense alleging that HomeTeam's exclusive use of its "tubes in the walls" system violates the federal Sherman Antitrust Act, and California's Cartwright Act and Business and Professions Code. Plaintiffs seek a declaratory judgment that the alleged misconduct violates the Sherman and Cartwright Acts, and the Business and Professions Code; a permanent injunction against continuing alleged violations; and monetary damages. The lawsuit is pending in the United States District Court, Northern District of California. The Company cannot currently estimate the loss, if any, because the lawsuit is at an early stage and involves unresolved issues of law and fact. The Company intends to defend this matter vigorously.

ROLLINS, INC. AND SUBSIDIARIES

On December 2, 2014, Plaintiff Jose Luis Garnica, on behalf of himself and a class of similarly situated customers, sued Rollins, Inc. and its subsidiary HomeTeam Pest Defense alleging that HomeTeam's exclusive use of its "tubes in the walls" system violates the federal Sherman Antitrust Act. The Plaintiff seeks a declaratory judgment that the alleged misconduct violates the Sherman Act; a permanent injunction against continuing violations; and monetary damages. The lawsuit is pending in the United States District Court, Northern District of California. The Company cannot currently estimate the loss, if any, because the lawsuit is at an early stage and involves unresolved issues of law and fact. The Company intends to defend this matter vigorously.

Management does not believe that any pending claim, proceeding or litigation, either alone or in the aggregate will have a material adverse effect on the Company's financial position, results of operations or liquidity; however, it is possible that an unfavorable outcome of some or all of the matters, however unlikely, could result in a charge that might be material to the results of an individual quarter or year.

NOTE 5. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, trade receivables, notes receivable, accounts payable and other short-term liabilities. The carrying amounts of these financial instruments approximate their fair values. ROLLINS, INC. AND SUBSIDIARIES

The preliminary values of major classes of assets acquired and liabilities assumed recorded at the date of acquisition, as adjusted during the valuation period, are included in the reconciliation of the total consideration as follows (in thousands):

The carrying amount of goodwill was \$252.6 million and \$249.9 million at March 31, 2016 and December 31, 2015, respectively. NOTE 9. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Risk Management Objective of Using Derivatives

The Company is exposed to certain risk arising from both its business operations and economic conditions. To manage this risk, the Company enters into derivative financial instruments from time to time. Certain of the Company's foreign operations expose the Company to fluctuations of foreign interest rates and exchange rates. These fluctuations may impact the value of the Company's cash receipts and payments in terms of the Company's functional currency. The Company enters into derivative financial instruments from time to time to protect the value or fix the amount of certain obligations in terms of its functional currency, the U.S. dollar.

ROLLINS, INC. AND SUBSIDIARIES

Hedges of Foreign Exchange Risk

The Company is exposed to fluctuations in various foreign currencies against its functional currency, the US dollar. The Company uses foreign currency derivatives, specifically vanilla foreign currency forwards, to manage its exposure to fluctuations in the USD-CAD and AUD-USD exchange rates. Currency forward agreements involve fixing the foreign currency exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in US dollars for their fair value at or close to their settlement date.

The Company does not currently designate any of these foreign exchange forwards under hedge accounting, but rather reflects the changes in fair value immediately in earnings. Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to foreign exchange rates. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings and were equal to a loss of \$0.6 million for the quarter ended March 31, 2016. As of March 31, 2016, the Company had the following outstanding derivatives that were not designated as hedges in qualifying hedging relationships (in thousands):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

On April 27, 2016, the Company reported its 40th consecutive quarter of improved revenue and earnings with net income of \$31.9 million for the first quarter ended March 31, 2016, as compared to \$30.3 million for the prior year quarter, a 5.4% improvement. Revenues increased by 6.6% to \$352.7 million for the first quarter 2016 as compared to \$330.9 million for the prior year first quarter. The exchange rate of the Canadian and Australian dollars to U.S. dollars reduced revenues and earnings by \$9.0 million and \$1.5 million, respectively. Net income for 2016 did not include a favorable non-recurring tax adjustment present in 2015's net income. Earnings for the quarter ended March 31, 2016 increased to \$0.15 per diluted share, as compared to \$0.14 per diluted share for the same period in 2015.

Rollins continued its solid financial performance generating \$41.3 million in cash from operations year to date.

Results of Operations:

THREE MONTHS ENDED MARCH 31, 2016 COMPARED TO THREE MONTHS ENDED MARCH 31, 2015

Revenue

Revenues for the first quarter ended March 31, 2016 increased \$21.8 million or 6.6% to \$352.7 million compared to \$330.9 million for the first quarter ended March 31, 2015. Growth occurred across all service lines and brands. Organic growth and pricing accounted for approximately 6.2% and acquisitions contributed less than 1%.

The Company has three primary service offerings: commercial, residential and termite and ancillary services. During the first quarter ended March 31, 2016, commercial pest control revenue approximated 41% of the Company's revenues, residential pest control approximated 40% of the Company's revenues, and termite and ancillary service revenue approximated 19% of the Company's revenues. Comparing first quarter 2016 to first quarter 2015, the Company's commercial pest control revenue grew 4.7%, residential pest control revenue grew 7.6%, and termite and ancillary services revenue grew 7.6%. Foreign operations accounted for approximately 7% and 8% of total revenues during each of the first quarters of 2016 and 2015, respectively.

Revenues are impacted by the seasonal nature of the Company's pest and termite control services. The increase in pest activity, as well as the metamorphosis of termites in the spring and summer (the occurrence of which is determined by the change in seasons), has historically resulted in an increase in the Company's revenues as evidenced by the following chart:

Consolidated Net Revenues (in thousands)

	2016	2015	2014
First Quarter	\$ 352,736	\$ 330,909	\$ 313,388
Second Quarter	—	392,150	369,357
Third Quarter	—	399,746	384,870
Fourth Quarter	—	362,500	343,951
Year ended December 31,	<u>N/A</u>	<u>\$ 1,485,305</u>	<u>\$ 1,411,566</u>

Cost of Services Provided

Cost of Services provided for the first quarter ended March 31, 2016 increased \$9.8 million or 5.8%, compared to the quarter ended March 31, 2015. Gross margin for the quarter increased to 49.6% for the first quarter versus 49.2% for the prior year first quarter. The margin for the quarter benefited from lower personnel related expenses as group insurance premium claims are down year-over-year, lower fleet cost due to a decrease in fuel prices year-over-year and, although service salary expense increased, service salaries were down as a percentage of revenue as we better utilized employees. The margin decreases were partially offset by increased materials and supply usage as we enter our busy season and an increase in legal expenses. The Company maintained good cost controls across most spending categories.

Depreciation and Amortization

Depreciation and Amortization expenses for the first quarter ended March 31, 2016 increased \$0.9 million to \$11.6 million, an increase of 8.0%. Depreciation increased \$0.8 million due to expenditures associated with the rollout of our new CRM system "BOSS", while amortization of intangible assets increased due to amortization associated with small acquisitions.

Sales, General and Administrative

Sales, General and Administrative Expenses for the first quarter ended March 31, 2016 increased \$6.7 million or 6.3%, to 31.8% of revenues, down 0.1 percentage points from 31.9% for the first quarter ended March 31, 2015. The decrease in the percent of revenue is due to a reduction in bad debt as we continue to focus our efforts in collecting our accounts receivable on a timely basis, reduced gas costs, lower advertising costs as a percent of revenues, and personnel related costs as group premiums are down due to reduced claims.

Gain on Sale of assets, Net

Gain on sales of assets, net were a net gain of \$0.1 million for each of the first quarters ended March 31, 2016 and March 31, 2015, respectively. The Company recognized net gains from the sale of company owned vehicles and property in 2016 and 2015.

ROLLINS, INC. AND SUBSIDIARIES

Income Taxes

Income Taxes for the first quarter ended March 31, 2016 increased \$2.9 million or 17.9% to \$19.3 million from \$16.3 million reported for first quarter ended March 31, 2015. This is due to increased pretax earnings. The effective tax rate was 37.6% for the first quarter ended March 31, 2016 and 35.0% for the first quarter ended March 31, 2015 primarily due to differences in deferred tax and state tax rates. Also, first quarter 2016 did not include a non-recurring tax adjustment present in first quarter 2015.

Liquidity and Capital Resources

The Company believes its current cash and cash equivalents balances, future cash flows expected to be generated from operating activities and available borrowings under its \$175.0 million credit facility will be sufficient to finance its current operations and obligations, and fund expansion of the business for the foreseeable future. The Company's operating activities generated net cash of \$41.3 million and \$44.1 million for the three months ended March 31, 2016, and 2015, respectively. During the three months ended March 31, 2016, the Company did not make any contribution to its defined benefit retirement plans (the "Plans") compared to \$3.5 million in contribution during the same period in 2015. The Company is considering making further contributions of \$3.3 million to the Plans during the fiscal year ending December 31, 2016. In the opinion of management, Plan contributions will not have a material effect on the Company's financial position, results of operations or liquidity for 2016.

The Company invested approximately \$9.0 million in capital expenditures during the three months ended March 31, 2016, compared to \$8.3 million during the same period in 2015, and expects to invest approximately \$18 million for the remainder of 2016. Capital expenditures for the first three months consisted primarily of the purchase of equipment replacements and technology related projects. During the three months ended March 31, 2016, the Company made expenditures for acquisitions totaling \$21.1 million, compared to \$28.2 million during the same period in 2015. A total of \$21.9 million was paid in cash dividends (\$0.10 per share) during the first three months of 2016, compared to \$17.5 million or (\$0.08 per share) during the same period in 2015. On April 26, 2016, the Company announced that the Board of Directors declared a regular quarterly cash dividend on its common stock of \$0.10 per share payable June 10, 2016 to stockholders of record at the close of business May 10, 2016 to be funded with existing cash balances. The Company expects to continue to pay cash dividends to common stockholders, subject to the earnings and financial condition of the Company and other relevant factors. The Company repurchased approximately 54 thousand shares at a weighted average price of \$24.77 from the open market during the first three months of 2016 compared to the repurchase of approximately 19 thousand shares at a weighted average price of \$22.42 during the first three months of 2015. The Company has had a buyback program in place for a number of years and has routinely purchased shares when it felt the opportunity was desirable. The Board authorized the purchase of 7.5 million additional shares of the Company's common stock in July 2012. These authorizations enable the Company to continue the purchase of Company common stock when appropriate, which is an important benefit resulting from the Company's strong cash flows. The stock buy-back program has no expiration date. In total, 5.9 million additional shares may be purchased under the share repurchase program. The Company repurchased \$7.4 million and \$6.1 million of common stock for the three months ended March 31, 2016 and 2015, respectively, from employees for the payment of taxes on vesting restricted shares. The acquisitions, capital expenditures, share repurchases and cash dividends were funded through existing cash balances and operating activities.

The Company's balance sheet as of March 31, 2016 and December 31, 2015 includes short-term unearned revenues of \$102.3 million and \$96.2 million, respectively, representing approximately 7% of our annual revenue. This represents cash paid to the Company by its customers in advance of services that will be recognized over the next twelve months. The Company's \$131.2 million of total cash at March 31, 2016, is held at various banking institutions. Approximately \$35.3 million is held in cash accounts at foreign bank institutions and the remaining \$95.9 million is primarily held in non-interest-bearing accounts at various domestic banks. The Company's international business is expanding and we intend to continue to grow the business in foreign markets in the future through reinvestment of foreign deposits and future earnings as well as acquisitions of unrelated companies. Repatriation of cash from the Company's foreign subsidiaries is not a part of the Company's current business plan. The Company maintains a large cash position in the United States while having little third-party debt to service. The Company maintains adequate liquidity and capital resources that are directed to finance domestic operations and obligations and to fund expansion of its domestic business for the foreseeable future without regard to its foreign deposits.

On October 31, 2012, the Company entered into a Revolving Credit Agreement with SunTrust Bank and Bank of America, N.A. for an unsecured line of credit of up to \$175.0 million, which includes a \$75.0 million letter of credit subfacility, and a \$25.0 million swingline subfacility. The Company had no outstanding borrowings under the line of credit or under the swingline subfacility as of March 31, 2016. The Company remained in compliance with applicable debt covenants through the date of this filing and expects to maintain compliance through 2016.

Litigation

In the normal course of business, certain of the Company's subsidiaries are defendants in a number of lawsuits, claims or arbitrations which allege that the subsidiaries' services caused damage. In addition, the Company defends employment related cases and claims from time to time. We are involved in certain environmental matters primarily arising in the normal course of business. We are actively contesting each of these matters.

On December 2, 2014, Plaintiff Killian Pest Control sued Rollins, Inc., and its subsidiary HomeTeam Pest Defense, and alleged that HomeTeam's exclusive use of its "tubes in the walls" system violates the federal Sherman Antitrust Act, and California's Cartwright Act and Business and Professions Code. Plaintiffs seek a declaratory judgment that the alleged misconduct violates the Sherman and Cartwright Acts, and the Business and Professions Code; a permanent injunction against continuing alleged violations; and monetary damages. The lawsuit is pending in the United States District Court, Northern District of California. The Company cannot currently estimate the loss, if any, because the lawsuit is at an early stage and involves unresolved issues of law and fact. The Company intends to defend this matter vigorously.

On December 2, 2014, Plaintiff Jose Luis Garnica, on behalf of himself and a class of similarly situated customers, sued Rollins, Inc., and its subsidiary HomeTeam Pest Defense, and alleged that HomeTeam's exclusive use of its "tubes in the walls" system violates the federal Sherman Antitrust Act. The Plaintiff seeks a declaratory judgment that the alleged misconduct violates the Sherman Act; a permanent injunction against continuing violations; and monetary damages. The lawsuit is pending in the United States District Court, Northern District of California. The Company cannot currently estimate the loss, if any, because the lawsuit is at an early stage and involves unresolved issues of law and fact. The Company intends to defend this matter vigorously.

Management does not believe that any pending claim, proceeding or litigation, either alone or in the aggregate will have a material adverse effect on the Company's financial position, results of operations or liquidity; however, it is possible that an unfavorable outcome of some or all of the matters, however unlikely, could result in a charge that might be material to the results of an individual quarter or year.

Critical Accounting Policies

There have been no changes to the Company's critical accounting policies since the filing of its Form 10-K for the year ended December 31, 2015.

New Accounting Standards

See Note 2 of the Notes to Condensed Consolidated Financial Statements for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operations and financial condition.

Forward-Looking Statements

This Quarterly Report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, without limitation, the effect of the future adoption of recent accounting pronouncements on the Company's financial statements; statements regarding management's expectation regarding the effect of the ultimate resolution of pending claims, proceedings or litigation on the Company's financial position, results of operation and liquidity; the Company's belief that its current cash and cash equivalent balances, future cash flows expected to be generated from operating activities and available borrowings will be sufficient to finance its current operations and obligations, and fund expansion of the business for the foreseeable future; our expectation that the Company will continue to pay dividends; our intention to continue to grow the business in foreign markets in the future through reinvestment of foreign deposits and future earnings as well as acquisitions of unrelated companies and that repatriation of cash is not a part of the Company's business plan; possible defined benefit retirement plan contributions and their effect on the Company's financial position, results of operations and liquidity; the Company's expectation to invest \$18 million in capital expenditure for the remainder of 2016; the Company's expectation to maintain compliance with debt covenants; and the Company's belief that interest rate exposure and foreign exchange rate risk will not have a material effect on the Company's results of operations going forward. The actual results of the Company could differ materially from those indicated by the forward-looking statements because of various risks and uncertainties including, without limitation, the possibility of an adverse ruling against the Company in pending litigation; general economic conditions; market risk; changes in industry practices or technologies; the degree of success of the Company's termite process and pest control selling and treatment methods; the Company's ability to identify and integrate potential acquisitions; climate and weather conditions; competitive factors and pricing practices; our ability to attract and retain skilled workers, and potential increases in labor costs; and changes in various government laws and regulations, including environmental regulations. All of the foregoing risks and uncertainties are beyond the ability of the Company to control, and in many cases the Company cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated by the forward-looking statements. A more detailed discussion of potential risks facing the Company can be found in the Company's Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2015. The Company does not undertake to update its forward looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of March 31, 2016, the Company maintained an investment portfolio (included in cash and cash equivalents) subject to short-term interest rate risk exposure. The Company is subject to interest rate risk exposure through borrowings on its \$175 million credit facility. The Company is also exposed to market risks arising from changes in foreign exchange rates. The Company believes that this foreign exchange rate risk will not have a material impact upon the Company's results of operations going forward. There have been no material changes to the Company's market risk exposure since the end of fiscal year 2015.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of March 31, 2016 (the "Evaluation Date"). Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of the Evaluation Date to ensure that the information required to be included in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

In addition, management's quarterly evaluation identified no changes in our internal control over financial reporting during the first quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. As of March 31, 2016 we did not identify any material weaknesses in our internal controls, and therefore no corrective actions were taken.
